ANISHINAABEMOWIN CURRICULUM DEPARTMENT

PRODUCT CATALOGUE

The Anishinaabemowin Curriculum Department is currently undergoing updates with the current Product Catalogue for the 2015/2016 school year. Inside this catalogue you will see all of our resources displayed in chronological order and categorized for easy searching. All of our products are translated in Anishinaabemowin with very little English content. Each poster carries its own theme (types of birds, animals, clans, nature, trees, etc.); there are flash

cards available as well for your everyday learning needs. Whether you are teaching at school or in your home, our products offer valuable and educational information. We also have story books; all written from listening to elder's stories. Everyone is welcome any day of the week to come and view our catalogue at our office. Your presence means a lot to us. You can also come and see what's new and give your insight on some of our newest projects.

WASSE-ABIN INTRODUCES WALKIN' TALKIN' JOGGIN

Every day from 10:40am to 11:00am our children participate in what we like to call "Walkin' Talkin' Joggin" (Bimosewin, Giigidowin miinwaa Miptoowin); an interactive activity that has brought a lot of awareness to our school. Parents and other community members have joined in

on this program to interact with the children, to show their support, and also to assist staff members who supervise the children during recess. The WTJ program was inspired by the "Just Move It" (JMI) campaign. Most physical activity campaigns motivate individuals and their choices. JMI's innovative model builds a greater momentum by tapping into the strength of entire communities as partners. The Wasse-Abin Junior School is doing their part in creating a healthy sense of balance between social interaction and physical activity. If you would like to become a part of this, please come join us every morning recess for some fun, excitement, and exercise that everyone can enjoy. Miigwech.
